AjayMohan

Am Security Engineer

About Me

I'm a **Security Engineer** I have hands-on experience in network security, threat analysis, and vulnerability assessment. Familiar with tools like Wireshark, Kali Linux, and Burp Suite, I am passionate about safeguarding information and identifying potential security risks. My knowledge of security protocols, cryptography, and incident response, combined with problem-solving and attention to detail, positions me to contribute effectively to a security team. I am committed to staying updated with the latest trends and best practices in cybersecurity.
